Dear Resident:

RE: Ontario Ministry of Transportation Demolition Activities

As part of our commitment to keep you informed of the status of Windsor-Essex Parkway project activities, I am writing to advise you of work that will soon be going on in your area.

Starting in mid-August we will begin the demolition of a number of Ministry of Transportation-owned buildings in your area that were purchased for the construction of The Windsor-Essex Parkway. Houses on Spring Garden Road will be among the first to be removed. Demolition includes the removal of houses and any materials on the property up to the curb line such as driveways. All properties will continue to be maintained and monitored.

During demolition, measures will be taken to control dust and work will be carried out in accordance with local noise bylaw requirements.

In accordance with the requirements of the *Endangered Species Act* (2007), restrictions have been applied to mowing activities in some areas. Signs are currently being posted at locations where mowing restrictions apply.

Demolition is part of the ongoing work we are undertaking this year in advance of full construction of The Windsor-Essex Parkway. Through the remainder of this year you will see progress on utility relocations, property assembly, and the ongoing construction of two bridges and a noise barrier in the areas of Highways 401 and 3 in south Windsor/Tecumseh.

Thank you for your ongoing patience as we work in this area. Should you have any questions, please contact our Windsor office at 519-973-7367. For information about The Windsor-Essex Parkway, visit www.weparkway.ca.

Yours truly,

Garfield Dales
Manager, Project Delivery Office
Ministry of Transportation
